

Accent Any Décor

The Invita™ WiFi Thermostat offers a slim, 9/16" profile with a choice of white (564) or black (564B) finish. A stainless steel trim ring, and a choice of five touchscreen color themes will complement any home's décor.

Better Design. Better Control. Better Systems.

Choose your thermostat solution from the control industry leaders with over 30 years of expertise. Ask your contractor for tekmar WiFi Thermostats and look forward to comfort, convenience and energy efficiency for years to come.

Two Wires? No Problem

Eliminate:

- Pulling new wires
- Patching & repainting walls
- Batteries
- Unreliable power stealing
- Unreliable wireless signals

The 2-Wire Problem, No Longer a Problem

Invita™ WiFi Thermostat uses the existing 2-wires to connect the display in the living area to the HVAC Interface Module in the mechanical room.

Works With Most HVAC Systems

Conventional systems:

- Up to 2-stage heating, 2-stage cooling, fan and 2 accessories

Heat pump & dual fuel systems:

- Up to 4-stage heating, 2-stage cooling, fan, reversing valve and 1 accessory

Accessory options:

- Humidifier, dehumidifier, HRV/ERV ventilator

Peace of Mind

The Invita sends an email notification if a problem is detected with the HVAC equipment. When used together with a Watts FloodSafe™ Water Detector Shutoff, the Invita will notify you if the supply to the water heater has been shut off to prevent flood damage.
