EVOLUTION™ SYSTEM

DUCTLESS HEAT PUMPS

The Future of Home Comfort Is Here

Model: 38MPRB

WHY ARE SO MANY HOMEOWNERS GOING DUCTLESS?

Because they use the same process as traditional HVAC to heat and cool your home—just without the ductwork. Often called “mini-splits,” these systems work by connecting indoor and outdoor units through flexible refrigerant tubing—so they’re simple to install just about anywhere. And because ductless units are placed directly in the room, they offer precise temperature control, better energy efficiency and cost-effective comfort year-round.

Comfort Technology

Bryant® ductless systems use inverter technology—which continually adjusts the compressor speed as conditions change—for consistent comfort with lower energy usage. Plus, enjoy year-round comfort with a system that offers dependable performance in temperatures from -22° F to 122° F.

Efficiency

With SEER2 ratings up to 28.5 and HSPF2 ratings up to 18.0, all our Evolution Systems are ENERGY STAR® certified. Take advantage of added energy-saving features like eco mode to cut energy costs up to 60%—without compromising on comfort.

Air Quality

Every Bryant ductless unit has built-in reusable, washable air filters to capture airborne pollutants and allergens right in the room. Plus, the Evolution System comes equipped with relative humidity sensors—for customized humidity control in 5% increments.

Discreet Design

Systems integrate seamlessly into your home with nearly silent operation both indoors and out. And with auto-dimming LEDs and intelligent sleep mode cycles, the Evolution System helps create the peaceful and comfortable spaces you love while saving on energy.

Convenient Controls and Features

The Evolution System offers cutting-edge comfort features—like occupancy sensors that can tell where you are in a room and send fresh air your way, and temperature sensing remotes that ensure optimal comfort whether you’re sitting near a drafty window or curled up by the fire.

Limited Warranty

To the original owner, our Evolution System heat pumps are covered by a 10-year parts limited warranty upon timely registration.*

BRING A BOOST OF COMFORT TO ANY ROOM

FIND THE PERFECT FIT FOR YOUR HOME

We have systems to fit spaces of all sizes. Let us help you select the ideal unit to meet your needs.

High Wall (Size 9k or 12k)

- The gold standard in home comfort
- Wall-mounted
- Relative humidity sensor
- Built-in Wi-Fi® smartphone control
- Intelligent eye occupancy sensor
- Wireless remote control

High Wall (Size 18k)

- An extra boost of power for large spaces
- Wall-mounted
- Relative humidity sensor
- Built-in Wi-Fi® smartphone control
- Intelligent eye occupancy sensor
- Wireless remote control

Optional Wired Controller

- Wall-mounted
- 7-day programmable
- Customizable schedules

THE EVOLUTION ADVANTAGE

Bryant ductless has options for every space and budget. See how our Evolution System measures up with superior performance, cutting-edge capabilities and excellent energy efficiency.
