### FUNCTIONAL DESCRIPTION

The steel support bends allow installers to create 90° bends in RAUPEX® pipes without fitting an elbow. 3/8" & 1/2", 5/8" and 3/4" one-piece steel support bends create a 90° bend by snapping RAUPEX pipes into the integrated tabs. The 1" steel support bend (not shown) utilizes galvanized coiled springs that slide over 1" RAUPEX pipe and secure the pipe to the support bend (a 3-piece assembly).
