

Secure Aire™

THE BEST INDOOR AIR
QUALITY FOR YOUR
BUSINESS

www.secureaire.com/residential

Small things most people do on a daily basis can quickly lead to a dramatic deterioration of indoor air quality.

INACTIVATES
AND KILLS

— UP TO —

99%

of viruses, bacteria,
and mold

SecureAire can eliminate the most commonly discovered sources of indoor air pollution:

- Cleaning Products
- Perfume & Cologne
- Air Fresheners
- Dust Mites
- Pollen
- Smoke
- Viruses

“Improve productivity 8-11% though better air quality” (World Green Building Council)

“Indoor air can be up to 10x more polluted than outside air” (EPA & American Lung Association)

WHOLE-BUSINESS vs PORTABLE AIR PURIFICATION

From portable office space to duct-mounted units, SecureAire's product portfolio offers multiple configurations for an assortment of commercial applications. Use patented technology to purify the air in every room in your business.

Made in the USA

HOSPITAL TRUSTED

**TRUSTED IN OVER 4,000 HOSPITALS &
CLEAN ROOMS AROUND THE COUNTRY**

SecureAire's ACTIVE Particle Control Technology has been proven in over 4,000 hospitals nation-wide and LEED-certified commercial buildings to exceed even the best air filtration standards.

The **SAFEST, HEALTHIEST
& CLEANEST**

indoor air possible for you and your

EMPLOYEES

HOW DOES IT WORK?

Typical air purification systems work by moving air through a standard filter, sifting out particulates and trapping them in the filter. But that assumes that all particles can be moved by air currents. Surprisingly, many particles, like viruses, mold, pollen, and harmful VOCs, are so small that they are virtually weightless and completely unaffected by air currents. They remain suspended in the air much like fruit suspended in gelatin.

The only way to remove all particles, even down to molecular sizes, is with SecureAire's ACTIVE Particle Control Technology.

SecureAire[™]

THE SCIENCE BEHIND THE CLEANEST AIR

With SecureAire's ACTIVE Particle Control Technology, small particles are conditioned and combined with other particles to create larger "clumps" that are then actively transported to the filter. And unlike conventional filters that can allow potentially harmful organisms to continue to breed inside your home, the SecureAire System inactivates (kills) any pathogens. SecureAire's process efficiently and effectively provides you with the highest quality air purification for a Safe, Healthy, and Clean indoor air environment all while not producing any harmful ozone and lasting three times longer.
