

## Enhance the way you experience comfort.

With SmartSensor placed in multiple rooms, you can set an average temperature for your home to experience better comfort throughout.

With occupancy detection, SmartSensor can prioritize the rooms you're actually using for optimal comfort.

## Master your smart home experience.

Integrates perfectly with your favorite smart home systems including Amazon Alexa, Apple HomeKit, Google Assistant, IFTTT, and Samsung SmartThings.

## ecobee | SmartThermostat with voice control

With Alexa built-in and state-of-the-art SmartSensor included

## One easy install can make all the difference.

In cases of professional purchase and install, your ecobee comes with a 5-year warranty. That's 2 extra years in addition to the standard 3-year retail warranty, so your ecobee stays working the way we intended.

Contact our ecobee-certified Contractor for a professional installation.

## Amplify your voice with Alexa built-in

Use Alexa Calling, change the temperature, and connect to other smart devices—all with the power of your voice.

## Engineered for enhanced energy savings

By reducing wasted energy in your home, you could save up to 23% annually on your heating or cooling costs.\*

\*Compared to a hold of 72°F

## Bring new meaning to having control of your home

With Alexa built-in and an intuitive mobile app, you can control your thermostat and home using your voice, phone, tablet, computer, Apple Watch, or whatever works best for you—it's that easy.

## The easy way to have a lasting impact

You have the power to do your part in the fight against climate change. If all of us take one small step in the right direction and reduce our energy usage, together we can make a real difference.
